EXECUTIVE MBA [EMBA]

OBJECTIVES
Gain in-depth knowledge in the field of business administration
Enhance your leadership potential
Give you the ability to take your career to the next level
Acquire lifelong tools to achieve your ambitions

PRESENTATION
This Executive MBA (Master of Business Administration) is a one-year program, entirely taught in English and designed for professionals willing to gain in-depth knowledge in the field of business administration.

You have a professional experience and you want to step up to higher management positions: this is the degree you need.

The Executive MBA is conceived to give you the ability to take your career to the next level. You will gain more than expertise in business administration: you will acquire lifelong tools to achieve your ambitions.

The environment ensures effective and interactive lectures, where renowned professors and practitioners from different countries share their knowledge and expertise.

Organised around a part-time format, with two seminars per month (two-day seminars taking place on Fridays and Saturdays), the MBA offers the opportunity to follow courses while keeping your professional activities.

You will also prepare a research project on a business topic (in line with your professional activity) under the guidance of an academic supervisor and defend it at the end of the program.

You will develop your professional and international networks thanks to events organised by IAE Nice throughout the year.

You have the possibility to complete a study-abroad period at one of our partner universities (e.g. in Los Angeles, New York).
